WELCOME TO THE SCULPT CLINIC

The Sculpt Clinic is a **Doctor-led** skin clinic specialising in facial aesthetics and non-surgical cosmetic procedures.

Our philosophy is simple - everyone deserves to look and feel their very best and we believe the secret to creating natural subtle enhancements lies in being able to adopt a skilled and artistic approach to our work.

Our extensive portfolio of non-surgical treatments delivered by our Aesthetic Doctor can help **slow down the ageing process**, leaving you feeling refreshed and rejuvenated and **your most confident self yet**.

We are not just about fixing what's on the surface,
we are about inspiring confidence from within.

FOUNDER & AESTHETIC CLINICIAN

Dr Deepa Panchalingam
MBBS, BSc (Hons)

University of London graduate

Harley Street trained Doctor

- acne prone skin
- scarring
- sun-damaged skin
- pigmentation
- oily skin
- dull, dehydrated skin

YOUR CONSULTATION

No two faces are the same and our focus is on creating a bespoke treatment plan tailored to give you the most natural results using only the highest quality, tried and tested products.

Our clinic services start with a full in-depth medical consultation to establish your needs. You will only be recommended treatment options which are most appropriate for you and we will never advise treatment you do not need.

We maintain an open, confidential and highly professional approach with our experienced Doctor who can provide continuity of care with review appointments following your treatment.
